GENERAL INDICATIONS

Brothers and Sisters:

We are going to share the Messages in which Heaven has given us indications and recommendations to use the different medicinal plants to prevent and combat the diseases that humanity is facing and will face; unknown diseases or that were thought to be eradicated will return. These diseases are rapidly transmitted and highly contagious, which is enhanced in a globalized world, in which science does not have a cure to eliminate them and rather is being misused against man himself.

This is why Heaven alerts us and prepares us in advance. At this moment we see a great number of Messages revealed since the year 2009, which have been fulfilled. In these Messages we were warned of diseases, viruses, plagues and even pandemics that would affect humanity, some of them product of nature itself and others product of misused science, directed by a machinery of evil.

At this moment, virus mutations are occurring and manifesting themselves in pandemics. Heaven does not abandon us and has given us indications to help us, not to stop the disease in a person, but to protect us more and to strengthen our organism.

GENERAL INDICATIONS

As an example, in the commentary of the message received on June 9, 2016, given by Our Lord Jesus Christ, Luz de Maria told us the following:

“...we are warned as to the great imbalance that exists because of the manipulation of a group of people. They have devoted themselves for years now to deciding the fate of Humanity on the earthly plane. We will be invaded by constant plagues and illnesses spread all over the Earth, with the aim of reducing the world population. The war will be more overt.”

In the face of so much Divine Love manifested in each revelation, we must awaken our conscience and be grateful for all that has been given to us, using it for our own good and that of our brothers.

This document explicitly presents the Messages referring to the medicinal plants indicated by Heaven. In some cases they indicate the uses, properties and contraindications that every medicinal plant has, however, it is the responsibility of each person to investigate in depth the dosage, contraindications and interaction of the plant with their

GENERAL INDICATIONS

particular organism and with other medical treatments they receive, so as not to create interference or intoxication by combination of substances, always considering their state of health. Careful research is necessary for each person considering the use of medicinal plants; and this need should be transmitted to those who are recommended to use them.

In our eagerness to be fraternal, we have consulted experts in the field and we present the basic information of the medicinal plants recommended by Heaven and we present the following considerations of great importance for their proper use and greater benefit.

In this document, we have classified the plants according to their properties and the indications of the Blessed Mother, of how they favor and strengthen some systems of the human organism, so that it can be used as a document of easy understanding for the application and proper use of the plants.

We recommend to carefully review the following indications:

- 1- Certain medicinal plants recommended by the Blessed Mother include indication of dosage, forms of use and contraindications,

GENERAL INDICATIONS

however, in most of them, the Blessed Mother indicates only the plant and it is the responsibility of each person to investigate those that are only cited and to complement the knowledge of each plant and remedy given by Heaven.

2- Each person is responsible for knowing and analyzing his/her particular health situation (or that of the person to whom he/she recommends it) and taking into consideration the allopathic medicines (treatment with drugs) that he/she uses in order not to create pharmacological interactions or intoxication.

3- People with heart disease, hypertension, anti-clotting, diabetic, immune, digestive and liver problems, among others, should be especially careful in the use of medicinal plants.

4- The use of medicinal plants during pregnancy and breastfeeding is not recommended because they can cause adverse and dangerous effects on the body of the mother and child.

5- In the case of children under 7 years of age, the use of medicinal plants is not recommended, since they can cause very intense adverse effects and their organisms are not prepared to metabolize the substances that the plants contain and there is not enough scientific evidence to justify it. The use of plants through essential oils could be used with great caution by applying the oil on the soles of the feet, in

GENERAL INDICATIONS

children over 3 years old.

6- There are several ways to use medicinal plants, mainly in natural form or in essential oils, but in all cases it is necessary to know the appropriate dose, according to the characteristics of the plant and the health situation of the person. Due to the above, it is the responsibility of each person to determine how to use the different plants.

7- It should always be taken into account that most medicinal plants used in excessive amounts or inappropriately, have some degree of toxicity.

8- It is recommended to start the use of medicinal plants preventively, alternating them and not using them for more than two weeks at a time, as long as their use is preventive. In case of illness, the plant should be used according to the indications for each one, which should be consulted and investigated responsibly.

9- Another important aspect to consider is that some plants recommended by Heaven do not have scientific studies that support all their properties and uses, however, being indicated by the Blessed Mother and by Our Lord Jesus Christ, it is considered that Divine Wisdom and Science transcends current human knowledge and in Faith we trust in Heaven's indication for the good of each of Her children. Furthermore, with loving insistence, Our Lord tells us to use

GENERAL INDICATIONS

the medicines that His Will has given us.

10- The information published in this document contains a basic compilation about each plant and serves as a guide for the readers, but each one is responsible for carrying out a deeper investigation, considering reliable sources, to give the medicinal plants the most appropriate use, according to their particular situation.

OUTDOORS EXPOSURE AND GOOD SAMARITAN OIL

My children are suffering more frequently from respiratory diseases, which increase, being recurrent and requiring long treatment.

Children, have you not asked yourselves why it is that you should be weaker faced with respiratory diseases?

Exposure to drastic changes in the climate greatly contributes to your bodies' being exposed to respiratory complications, but at the same time the hand of man is implicit, spreading chemicals and viruses through the air so that you fall sick more frequently, and these sometimes become mortal for human beings. Faced with this, you should protect yourselves in order to minimize exposure to white trails when they cover the atmosphere. At the same time, spray the oil of the Good Samaritan on what you have chosen to protect your nose and mouth.

Sick minds of powerful nations are the demons that spread the disease on My children in airplanes. Shut your homes and do not expose yourselves to the open air when you see strange forms in the atmosphere.” **Blessed Virgin Mary,**

*Our Mother told me that true plagues will come and that we should ingest a raw clove of garlic every morning, or oil of oregano; these two are excellent antibiotics. If oil of oregano is not available, oregano can be boiled to make an infusion; however, the Oil of Oregano is a better antibiotic. **Blessed Virgin Mary, 06.03.2016***

USE OF SACRAMENTALS, HOLY OIL AND HOLY WATER

I invite you not to forget the use of sacramentals. In case of contagious diseases (pestilences, plagues, others) anoint the doors and windows with holy oil.

If you find yourselves sick, sprinkle the food with holy water and keep in mind the use of the medicinal plants My Mother has indicated you use for these unexpected circumstances. Be creatures firm in faith, knowing that being endowed with reason and intelligence, you consciously obey the guidelines that the leaders of your countries indicate to you. My call is to remain alert. In this moment, humanity is threatened by illness. So at this time, you should protect and help one another with authentic love and with mercy, caring for your brothers/sisters as much as is possible, in the same way that you care for yourselves, and remain in your homes when your countries are being threatened by some epidemic. If, at this moment, you are not suffering from nature's attacks, from diseases, or from hunger, do not be indifferent toward those that are suffering, since no nation can assure it will not suffer these calamities at some moment. The cold-heartedness and indifference before suffering is an example of the estrangement that man maintains with My House. The Christian accompanies, suffers, and rejoices with his /her neighbor, because he/she knows that a neighbor is the image and likeness of his /her Creator.

Our Lord Jesus Christ, 05.2009

GOOD SAMARITAN OIL

GOOD SAMARITAN OIL

The plague is approaching: continue to use the Oil of the Good Samaritan, Saint Michael the Archangel, 12.15.2020

My People, prepare yourselves! Calamities are calamities, persecutions are persecutions. Plagues will increase and will be increasingly unknown. My Mother has given you the protection against the plagues: The Oil of the Good Samaritan and other means to fight what science will not succeed in fighting. Our Lord Jesus Christ, 08.06.2016

Recommendations:

- If available, use therapeutic degree essential oils, prepared in specialized laboratories to guarantee the pureness of the essences.
- For a better absorption of the Good Samaritan Oil, use as base oil liquid coconut oil or grape oil, which favor penetration of the oil in the skin.
- Elaborate in a cool place, without exposing the oils to direct light.
- Wear gloves and use a glass bowl.
- Test the mix on your forearm, wait 25 minutes. If skin reddens, wash with plenty of water or apply lavender oil, and little by little the redness will disappear.
- When this effect happens, add more of the same base oil with which the mixture was prepared. Do not expose the oils to the air for a long time; keep them in a tightly closed amber color glass container to prevent them from volatilizing and evaporating. They should be kept out of the reach of children.

GOOD SAMARITAN OIL

Plague is advancing, My Children, it is advancing and changing into a pandemic, causing terror and fear. You have been warned by the Father's House and have the teachings about natural medicines for combating these contagious diseases. Prepare the Oil of the Good Samaritan to prevent contagion.

**Blessed Virgin Mary,
11.03.2019**

Dosage and application:

Before each use move the container softly so the oils get mixed. Apply and rub a few drops directly on the temples, throat, behind the ears, underarms, abdomen, joints, or full foot sole.

To purify the air and remove viruses from the environment, home or office, use a diffuser, spray or pan of boiling water with a few drops. Another way to use: in a piece of cloth, handkerchief, dust mask or cotton balls put 3 to 4 drops of oil and place over the mouth.

Contraindications:

Do not use an essential oil directly on the skin without first diluting it in a base oil. Oils on their own are irritants and must be carefully handled. For sensitive skin, apply only on foot sole. It is not recommended for children under 3 years of age. Pregnant women: ask a professional about the negative effects of the essential oils.

GOOD SAMARITAN OIL

Note: The recipe that the Mother has given us uses pure essential oils. If these cannot be found, you can get the corresponding herbs for each essential oil and find a way to extract them in order to mix them. Although concentration is not equal to that of essential oil, given that a distillation process is not used, it can be helpful when essential oils are not available, but not as effective as essences. Essential oils can be found in specialized stores or macrobiotic stores. In every country you can find the essences to prepare the mixture.

It is recommended to stay in prayer during the preparation of the oil and to have faith in the Divine Recommendations.

BLESSED GRAPES

WHEN SCARCITY BECOMES GENERALIZED, remember that My Mother thought about you way in advance and blessed grapes so that at that instant your hunger will be appeased, also I have asked you to pray NOW for those instants and to prepare yourselves spiritually so you will be able to encounter—with Faith, strength, and perseverance—the instants of harsh and difficult trial that lie ahead for everyone. **Our Lord Jesus Christ 09.27.2015**

I do not abandon you. Do not forget to keep in your homes the blessed grape in My Name for the instants of shortage.

**Our Lord Jesus Christ
10.27.2014**

Prepare the Blessed Grapes

Regarding Christ's request for blessed grapes, Luz de María's comments:

Christ indicates that we must look for a priest and ask him to bless a bunch of grapes (or only one grape because one blessed grape can be used to bless other grapes and can feed two people if they have Faith and are properly prepared spiritually.) This will be useful for times of food shortage.

To bless the other grapes:

Take one grape blessed by a priest and use it to bless the remaining ones with it, as follows:

Cut each remaining grape away from the bunch with scissors so each one will have a piece of stem attached to it.

Each of the new grapes is blessed by rubbing it with the grape that was originally blessed by a priest while saying: "In the Name of the Father and the Son and the Holy Spirit, amen."

BLESSED GRAPES

Then store the blessed grapes in sterilized containers. Fill $\frac{3}{4}$ of each container with grapes and then add cognac or brandy (no other liquor) until each container is full. Close the containers properly.

The blessed grapes will keep for as long as necessary until the time when they will be consumed. These blessed grapes may be shared with brothers for them to bless grapes on their own.

Fifteen years ago Christ asked us to bless some grapes and today the grapes are still in good condition.

If in some country grapes are not available, any other abundant fruit may be substituted if it is small like a grape.

The Blessed Virgin Mary indicates how to transfer the blessing of the grapes from one Blessed Grape to a new bunch of grapes so that more people may benefit from them.

While the grapes are still attached to the bunch, wash them thoroughly in a solution of water with one or two drops of liquid soap and then rinse them. Then each grape is cut away from the bunch with scissors leaving a piece of stem on each one. Then take one Blessed Grape and rub it against one new grape making the Sign of the

BLESSED GRAPES

Cross on it while saying, “In the Name of the Father and the Son and the Holy Spirit, amen.” Beforehand, prepare a clean glass container with a lid that seals well.

The blessed grapes can be eaten by sick people who cannot retain food. People who fast with the Blessed Grape will be protected from plagues, terrible diseases and other catastrophes. People will receive sustenance equivalent to the food, water, vitamins and minerals that the body needs.

The brandy used to prepare them has medicinal value (if you are sick take a teaspoon that taken with FAITH will cure).

One grape will sustain two people throughout the day. A supply should be kept for up to six months or more (approximately 180 grapes). The Blessed Grape will not sustain any person who mocks or does not believe. One grape will sustain two people for the entire day. A supply should be kept for up to six months or more (approximately 180 grapes). The Blessed Grape will not sustain any person who mocks or disbelieves.

HONEY CONSUMPTION

Note: May be dangerous for children under one year of age. This is because, when mixed with the non-acidic digestive juices of infants, it creates an ideal environment for the growth of botulism spores, which are one of the few bacteria that survive in honey. These spores are harmless in adults because of the acidity in the stomach, but the digestive system of infants is not sufficiently developed to destroy them. Some people are sensitive or allergic to specific components of honey.

*Store up food, it will become scarce. Prepare Blessed Grapes and keep honey. Have the Oil of the Good Samaritan with you and the medicines that My House has made known to you. **Our Lord Jesus Christ 09.21.2021***

*People of Our King and Lord Jesus Christ, the Earth is being strongly shaken; you should keep provisions of what is specifically necessary for survival - not only your personal survival and that of your family, but that of your brothers and sisters. Store honey: this food is beneficial. At the same time store what is possible for each one of you. **Saint Michael the Archangel, 07.03.2021***

Honey has the following characteristics:

- *Chemical composition: honey is mainly composed of sugars (78% to 80%) which are roughly divided into fructose (or levulose) 38%, glucose (or dextrose) 31%, and the remaining 31% contains maltose, sucrose and a wide variety of polysaccharides. Honey also contains about 17% water.*

HONEY CONSUMPTION

Note (cont): People with diabetes should be careful with the amount of honey because it affects blood sugar levels. For the best use of the properties of honey, it is recommended not to reheat or boil it.

- *It has an exceptional concentration of amino acids: Aspartic, glutamic, alanine, arginine, asparagine, cystine, glycine, histidine, isoleucine-leucine-lysine, phenylalanine-proline, tryptophan, serine, tyrosine, valine.*
- *Minerals up to 1%: Silver, barium, calcium, bromine, beryllium, copper, cobalt, chromium, iron, lithium, magnesium, manganese, molybdenum, gold, palladium, phosphorus, potassium, rubidium, scandium, sodium, sulfur, silicon, strontium, titanium, zirconium, vanadium and zinc. If these elements are not present together in all honeys, some such as potassium, magnesium and zinc are always there.*
- *Vitamins in considerable quantities: which, without covering our daily needs, have the advantage of being highly assimilable: Vit A, Vit B1, Vit B2, Vit B3, Vit B5, Vit B6, Vit B8 - Vit B9, Vit C, Vit D, Vit K.*
- *Small amounts of fatty acids: palmic, oleic, and linoleic acids*
- *Enzymes including amylase a and amylase b, glucose invertase and glucose oxidase*
- *Biological and aromatic substances, including flavonoids, alcohols, esters, pigments and pollen grains.*

NUT CONSUMPTION

Nuts have the following characteristics:

- Has anti-inflammatory properties
- Helps prevent cardiovascular diseases
- Promotes blood circulation
- Supports weight loss
- Improves the nervous system
- Helps the immune system
- Liver problems
- Prevents osteoporosis
- Improve mood
- Helps skin care

Beloved daughter, a spoonful of honey and a few nuts will be sufficient food for the survival of the body, they provide what is necessary for all the organs to function properly. Tell this to My children so that it may be a blessing for them in times of famine. Our Lord Jesus Christ to Luz de Maria

Plea to the Blessed Mother in the face of the scourge of sickness (Inspired by Luz de Maria, 05.2009)

Immaculate Mother, blessed Sanctuary of love:
To You do we cry, hear our pleas,
We implore Your Maternal intercession at this moment
In which the scourge of illness threatens humanity.

You, faithful protector of those who humbly
come to ask for Your favors, pray to the Holy Trinity
to send Its angelic protectors to combat
this evil that befalls those who belong to You.

May Your Holy Mantle be shield and shelter for all
Of us who faithfully ask this favor, so that
Out towns and homes be sealed by the Celestial protection.

We give you thanks Immaculate Mother for so great a favor;
Do not abandon us in this valley of tears,
You are shield, shelter and guide of those of us who cry out in one voice.
